	<u>Left</u>	<u>Right</u>	<u>Both</u>	<u>Minimum Requirement</u>
a. FAR VISION	N/A	N/A	N/A	No requirement
b. NEAR VISION	_____	_____	_____	See table below*

The above tests should be conducted using any correction (glasses/contact lenses) normally worn for near and far vision.

If patient has one unacceptable and one acceptable eye on individual testing but both eyes together give acceptable result, then this is acceptable.

c. COLOUR VISION _____ Normal as determined by means of Dvorine Chart, Ishihara plates or equivalent.

(Passing score is 12 correct out of 14 red/green test plates, not including the demonstration plate.)

Alternatively, a practical test using colour-coded wires and/or coloured electrical parts is acceptable for colour perception testing.
